

Touch Racing Nitro now at 1.2

Bravo Game Studios launch update to their #1 driving game and lower price to USD\$1.99 / GBP £1.19 / EUR€1.59

June 25th, London: Bravo Games Studios™ (BGS), the gaming subsidiary of Spanish app developer and publisher Genera Interactive, today launch Touch Racing Nitro 1.2 onto the app market with a new price of USD\$1.99 / GBP£1.19 / EUR€1.59.

Touch Racing Nitro became the #1 grossing racing game in the US upon release, as well as achieving a similar position across all the major European territories. The new release takes everything that was great about the original, such as the revolutionary and intuitive control method, 3D race visuals and customisable vehicles, and adds to it. New features in Touch Racing Nitro 1.2 include:

- Play against your friend's ghost tracks using Openfeint, or against the best lap times in the world!
- Get to grips with the cars and the track with a brand new tutorial mode.
- New price point - USD\$1.99 / GBP£1.19 / EUR€1.59

These features are incremental to those found in 1.1, which included:

- 1-tap reset – get straight back on track.
- Easier re-start option enables players to re-start midway through a race.
- Modified physics and AI which allows a more progressive learning curve.
- Openfeint leaderboards and achievements

Rowan Corben, Bravo Games Head of Marketing, commented "We are still listening to the fans of the game and making changes based on their feedback. It's important to us that we keep on striving to make Touch Racing Nitro the absolute best it can be." He continued "Being able to play against a friends ghost track is something that we had planned since the initial release, and now that it's in the new Touch Racing Nitro 1.2 version it's proving to be a great game mechanic. Add to that the new tutorial that really helps the new players settle in, and I think we've really upped the game."

Touch Racing Nitro 1.2 is available now from the App Store, and is priced at USD\$1.99 / GBP£1.19 / EUR €1.59.
